CEO's Desk

Jambol

Thank you for taking time to peruse through the Elle Interior Designers Ltd company profile! We have come some way since our inception and this simply wouldn't be possible without the collective effort of our team, partners and customers.

ELLE is more than an interior design company – it's a culture and a lifestyle, where the focus is not just about transforming spaces and moods but changing lives in the process as well.

On a larger scale we are honored to be currently working with IBM. Work geared towards developing smarter, more interconnected and efficient spaces and environments for this great continent.

Together let's partner to create areas that tell their own unique and inspirational story. That is the beauty of interior design.

Warm Regards!

Daphine M. M. Okonji
CEO, Elle Interior Designers Ltd
OUR STORY

In 2008, a small company was formed in Kenya with a little more than passion and the desire to add color to the African interior design landscape. Comprising of 2 ladies and a humble corner office, a seed was planted which eventually grew to become the enterprise whose mission entailed beautifying the spaces we reside in whilst productively adding value to customer lifestyle in the process.

Today Elle is an International Award Winning interior design company whose main aim remains true to the initial purpose of creating quality customized living and working spaces. The Elle portfolio includes executive offices, residential areas, schools, museums, hospitals and banks.

Our purpose is not limited to design though. We are also involved in developing smarter office and living spaces – spaces that speak to us intelligently by making use of new technology. This is our contribution to a smarter planet.

Changing homes and lives has never been more rewarding.

“GOOD DESIGN HAS TO TELL A STORY. IT HAS TO STOP PEOPLE, AND IT HAS TO MAKE THEM WONDER. GOOD DESIGN IS A CONVERSATION.”

OTHER PROJECTS
3D CONCEPT RENDERING

3D Design is a key business at Elle. Our 3D Department will ensure you have an excellent visual of your finished office space and better still - make adjustments to preliminary drawings before the actual work commences. We use a wide range of colors, textures, objects, perspective and lighting effects to render the desired project.

Our life-like presentations will help you understand your concept space in accurate detail on manufacturer products and room design with amazing photo-realistic renderings featuring full lighting and shadow effects for greater perspective.
